### CODE OF MISCONDUCT/ WRONG DOING IN RESEARCH

Research misconduct is conventionally defined as fabrication, falsification or plagiarism in Proposing, performing, reviving research or in reporting research results

Fabrication is magnification of the result and recording them as they were real

Falsification operating research material, equipment, or processes or changing, omitting or suppressing data or result without justification. Plagiarism is using other people's work and ideas without giving proper credit to the original sources, thus violating the right of the original others to their intellectual output

In addition to the above serious misconduct of research, the other following considered as an Unacceptable practices in the field of research.

- Self-plagiarism
- Manipulating/withholding the results
- Manipulation of authorship
- Inappropriate bibliography
- Misusing the Seniority
- Unnecessary involvement into others research

Whenever is Misconduct in the research in the world, the head of the institute has as well as the IEC should deal Monitoring the Integrate and Transparency.
