Action taken on Feedback System on curriculum

According to Alumini's curriculum comments, students should learn about contemporary technologies that are rapidly evolving. Students and alumni both acknowledged the necessity for contemporary technology courses to be included in order for them to be beneficial in their future studies or work chances. A report has been produced and placed on the agenda of the committee for approval.

The following activities were carried out in accordance with the committees' recommendations.

- A hands-on workshop was held.
- A well-organized teaching technique program
- Expert talks are planned.
- IPR cell held events for innovation and patent filing
- Students are taken on an industrial tour.
- MOUs with diverse industries are carried out by industry and academics.

Action taken on Feedback System on curriculum

The alumni response about the program emphasizes the importance of students acquiring knowledge in rapidly advancing contemporary technology. The students and alumni alike have underlined the necessity for the inclusion of technology disciplines that are relevant to their further education and future employment prospects. A report has been created and included on the agenda of the committee for the purpose of seeking approval.

The activities carried out were in accordance with the recommendations provided by the committees.

- A practical workshop was held.
- The curriculum on effective teaching approach was well-structured and implemented.
- Organized expert seminars are arranged.
- The Intellectual Property Rights (IPR) unit organized several activities related to innovation and the submission of patent applications.
- Students are provided with the opportunity to participate in an industrial tour.
- The Memoranda of Understanding (MOUs) are established between different sectors and academic institutions.
