**Action taken on Feedback System on curriculum**

Employers' feedback on curriculum indicates that students should learn about contemporary technologies that are rapidly evolving. Students and alumni both acknowledged the necessity for contemporary technology courses to be included in order for them to be beneficial in their future studies or work chances. A report has been prepared and placed on the committee's agenda for approval.

The following activities were carried out in accordance with the committees' recommendations.

- A hands-on workshop was held.
- A well-organized teaching technique program
- Expert talks are planned.
- Students are taken on an industrial tour.
- MOUs with diverse industries are carried out by industry and academics.

**Action taken on Feedback System on curriculum**

The Employer's comment on the program highlights the need of students acquiring knowledge in rapidly evolving technology. The students and alumni alike have voiced their opinion that the incorporation of technological topics in the curriculum should be done in a manner that aligns with their future academic pursuits and career prospects. A report has been created and placed on the agenda of the committee for approval.

The activities carried out align with the recommendations provided by the committees.

A practical workshop was held.

The training on effective teaching methods was well-organized.

Organized expert seminars are arranged.

- Students are provided with the opportunity to participate in an industrial tour.

The Memoranda of Understanding (MOUs) are established between business and academics.

**Action taken on Feedback System on curriculum**

Employers who gave feedback on the program said that students should learn about new technologies that are developing very quickly. The students and grads both said that current technology should be taught in a way that will help them in their future studies or jobs. A report was made and put on the table for the committee to vote on.

Here are the things that were done based on what the groups said should be done.

- There was a hands-on workshop
- Program set up for effective teaching methods
- Expert talks are scheduled
- Students go on a trip to a factory
- The MOUs with different businesses are carried out by both businesses and universities.
