### Analysis of Feedback and Report on Actions Taken

Stake Holder	Feedback	Action Taken
<b>Students</b>	There is a need for enhanced skill-focused and add-on courses.	Workshops and STTP programs are provided in every department to increase students' comprehension of and interest in new fields of study.
	For rapid learners to succeed in tough situations, training must be improved.	For rapid learners, product training is provided in addition to regular training sessions. Neo Colab is provided with Neo Colab and Neo PAT as online practice platforms.
	The organization must improve its internship program.	By teaching them about and recruiting them for internship initiatives, the Department of Education also encourages students to complete internships during the summer.
	More More students should be inspired to join in club activities and extension activities.	As part of their academic obligations, every student at the institution of higher learning must join one of the many clubs.
<b>Teacher</b>	Curriculum has to be improved, and courses in emerging technologies should be offered.	The same material is discussed and any required adjustments are made during the BOS meeting.
	E-journals are capable of remote access.	The person in charge of the library receives the same details as well as links to the online access points.
<b>Alumni</b>	The chosen area of study's applications should get more attention. Put greater emphasis on code and the practical	The last year's multidisciplinary projects were encouraged. Students are urged to take part in the coding and design competition.
	Projects and internships need to be offered.	Every weekend, there are regular code contests..
	more weightage	Work experience, certification, and NPTEL courses are now required.
	Possibilities exist to enhance employability	More focus is placed on training during campus recruitment training. the demands of industry for students
