## ICT Used by Faculty

All the Staff member are used by ICT for Teaching Purpose and also used various innovative Teaching Methods . In classrooms ICTs have a significant influence on learning process. It can increase the autonomy of the process of seeking knowledge, assist the apprehension of the content supports clinical decision making and improves the quality of nursing profession. ICT will be an indispensable component in nursing curriculum.

### **USES OF ICT:**

The use of ICT in the class room teaching learning provides opportunities for teachers and students to operate, store and retrieve information, and encourage students for independent and active learning and become responsible for teaching and learning. It also enables the teachers to plan and prepare the lessons and design materials such as course content, sharing of resources, their expertise and advice.

The following Steps are taken to implementation ICT in the college; The classrooms are equipped with boards, podiums, LCD projector, overhead projector facilities to support the teaching learning process. The teaching faculty has ICT knowledge and can integrate with teaching learning activity; they also encourage their students to use ICT for learning. Our campus is having Wi-Fi facilities which can be utilized by the faculty and students for updating with recent expertise.
