CURRICULUM INTEGRATION OF INSTRUCTIONAL ACTIVITIES WITH ENTERPRISE-RELATED ACTIVITIES

Course Title: Infection Control Nurse

Course Description: The Infection control nurse course provided by us offers academic and professional training with a high level of specialization in epidemiology and infection control, aimed at ensuring that recipients:

- ✓ Acquire knowledge and competence about the epidemiology of hospital infections, their transmission, and control
- ✓ Know basic research concepts within the specialty
- ✓ Acquire the capacity to carry out an institutional analysis to manage infection control policy changes through appropriate strategies

We have professionals dedicated to education, medicine, sterilization, and fundamentally to epidemiology and infection control with advanced experience.

Learning Outcomes:

- To enhance managerial and technical skills in the field of Infection Control.
- To develop critical thinkers who creatively engage in nursing processes to improve healthcare outcomes.
- To develop caring and culturally responsive communication and interpersonal skill.
- To develop capabilities for effectively leading interdisciplinary healthcare teams.
- To understand nursing ethics and by laws.
- To develop effective collaborators to effectively contribute to disease prevention, quality, safety and equality.

Instructional Activities:

1. Lectures and Discussions:

- Provide theoretical foundation and conceptual understanding of key topics related to enterprise and business practices.
- Examples: Guest lectures from industry experts, case studies, and group discussions on relevant business concepts.

2. Hands-on Projects:

- Engage students in practical projects that simulate real-world enterprise scenarios.
- Examples: Business plan development, market research projects, and analysis of industry trends.

3. Simulations and Role-Playing Exercises:

- Allow students to apply theoretical knowledge in simulated business environments.
- Examples: Business simulation games, role-playing scenarios of business negotiations and decision-making.

Enterprise-Related Activities:

1. Internships and Work Placements:

- Provide opportunities for students to gain practical experience in real-world enterprise settings.
- Examples: Internships at local businesses, work placements with industry partners.

2. Industry Collaborations and Partnerships:

- Facilitate partnerships with local businesses, industry associations, and entrepreneurial networks.

3. Entrepreneurial Initiatives:

- Encourage students to develop entrepreneurial skills and mindset through various initiatives.
