Young women, those 18-24, experience certain severe types of harassment at disproportionately high levels: 26% of these young women have been stalked online, and 25% were the target of online sexual harassment. Description	<p>The principal addressed the gathering and welcomed all. The HOD distributed the work and the coordinators proceeded with camp</p> <p>Plastic is convenient, and it is cheap. It is no wonder that the majority of manufacturing and packaging for most consumer goods are based around or using plastics. But is this where many of the benefits end. Plastic is not only environmentally harmful to manufacture and dispose of, but it also takes a toll on your health, and it takes an incredibly long time to degrade in a natural environment. Many of these plastics also make their way into the food chains of many animals, some that we also eventually consume. Plastic is an incredibly dangerous threat to our environment at this time. People are consuming plastic more than ever before, leading to more plastic waste, more manufacturing demand, and a more toxic place for wildlife to exist.</p> <p>Finally HOD congratulated all for successful conduction of camp and felicitated the team.</p>
