Coordinators	Ms.Latpate Shital	
Description	<p>The principal addressed the gathering and welcomed all. The HOD distributed the work and the coordinators proceeded with camp</p> <p>Education is a lifelong process that is vital to India's economic and social progress. Women and men continue to face gender stereotypes and prejudice from preschool to adult education, which can have a significant impact on their educational choices and career paths. Teachers play an important role in promoting gender equity in schools/colleges/universities. Gender equality in and through education necessitates the creation of egalitarian institutions that provide policies, budgets, and plans that allow everyone to succeed, regardless of whether they were born male or female. This necessitates a focus on the institutional arrangements, management structures, social norms, relational dynamics, and political economy challenges that influence education, as well as tackling gender-related disadvantages that result in differing outcomes for girls and boys, women and men.</p> <p>Finally HOD congratulated all for successful conduction of camp and felicitated the team.</p>

Description	<p>The principal addressed the gathering and welcomed all. The HOD distributed the work and the coordinators proceeded with camp</p> <p>An unfortunate number of women are becoming victims of cybercrimes. According to a recent study more women are known to use the Internet to enrich their relationships compared to men. Young women, those 18-24, experience certain severe types of harassment at disproportionately high levels: 26% of these young women have been stalked online, and 25% were the target of online sexual harassment. The growing reach of the Internet and the rapid spread of information through mobile devices has presented new opportunities that could put some women at risk, so it's important to be mindful of the dangers.</p> <p>Finally HOD congratulated all for successful conduction of camp and felicitated the team.</p>

Description	<p>The principal addressed the gathering and welcomed all. The HOD distributed the work and the coordinators proceeded with camp</p> <p>Plastic is convenient, and it is cheap. It is no wonder that the majority of manufacturing and packaging for most consumer goods are based around or using plastics. But is this where many of the benefits end. Plastic is not only environmentally harmful to manufacture and dispose of, but it also takes a toll on your health, and it takes an incredibly long time to degrade in a natural environment. Many of these plastics also make their way into the food chains of many animals, some that we also eventually consume. Plastic is an incredibly dangerous threat to our environment at this time. People are consuming plastic more than ever before, leading to more plastic waste, more manufacturing demand, and a more toxic place for wildlife to exist.</p> <p>Finally HOD congratulated all for successful conduction of camp and felicitated the team.</p>
