Description	<p>The principal addressed the gathering and welcomed all. The HOD distributed the work and the coordinators proceeded with camp</p> <p>Blood donation is a voluntary procedure that can help save lives. There are several types of blood donation. Each type helps meet different medical needs. Whole blood donation is the most common type of blood donation. During this donation, you donate about a pint (about half a liter) of whole blood. The blood is then separated into its components — red cells, plasma and sometimes platelets.</p> <p>Finally HOD congratulated all for successful conduction of camp and felicitated the team.</p>
