

# MIDWIFERY AND OBSTETRICAL NURSING

**Placement: Fourth Year (N)**

**Time: Theory-90 Hours  
Practical-180Hours**

## **Course Description:**

This course is designed for students to appreciate the concepts and principles of Midwifery and obstetrical nursing. It helps them to acquire knowledge and skills in rendering nursing care to normal and high risk pregnant woman during antenatal, natal and post natal periods in hospitals and community settings. It also helps to develop skills in managing normal and high-risk neonates and participate in family welfare programme.

**Specific objectives:** At the end of the course student will be able to:

1. Describe the normal pregnancy, labor and puerperium and demonstrate the application of knowledge and skill in giving need –based care.
2. Demonstrate safe management of all stages of labour.
3. Identify the high risk factor during pregnancy, labor and puerperium as well as neonates and take appropriate interventions.
4. Motivate the mother for care of the baby and adapting family planning methods to maintain small family norms.
5. Prepare the mothers for self care during the pregnancy, labor and puerperium.

## ANC CASE STUDY / PRESENTATION FORMAT

### Identification data

**Patient:** Name, Age in years, Dr's unit, reg. no  
education, occupation, income, religion, marital

status, duration of marriage

Gravida, para, abortion, living, blood group

**Husband:** Name, Age, education, occupation, income

### Present complaints

#### History of illness

**Menstrual history:** age of menarche, duration of menstrual cycle, duration of cycle in days, regularity, amount of flow, LMP, EDD, associated complaints

#### Contraceptive history:

#### Antenatal attendance:

Date, weight, pallor, edema, BP, Ut. Ht, presentation/position, FHS, Hb, Urine albumin/sugar, treatment

#### Obstetric history:

H/O Previous pregnancy / deliveries,

Period of pregnancy, type of labour/delivery, birth weight, PNC condition, remarks

#### Present pregnancy:

Date of booking, number of ANC visits, H/O minor ailments

#### Past medical, surgical history:

#### Family history:

#### Diet history:

#### Socioeconomic status

#### Personal habits

#### Psychosocial status

#### Physical assessment:

General examination: head to foot

Obstetric palpation, Auscultation

### Conclusion

### Investigation

### Ultrasonography

### Treatment

**Description of disease**

**Therapeutic diet plan**

**Nursing care plan**

**Nurse's notes**

**Discharge planning**

**Antenatal advice**

**Evaluation of care**

**References**
