Action taken on Feedback System on Curriculum

The evaluation of the curriculum by the participants. Students argue that they should be educated in the rapidly evolving field of contemporary technology. The students and alumni alike have underlined the necessity for the inclusion of technology courses that are relevant and beneficial to their future academic pursuits and career prospects. A report has been created and submitted to the committee for consideration and approval.

The activities carried out were in accordance with the recommendations provided by the committees.

- A practical workshop was held.
- The training on effective teaching methods was well-structured and efficiently organized.
- Organized expert seminars are facilitated.
- Students are provided with the opportunity to participate in an industrial tour.
